- Building your Communities of Practice

Language

German or English (course materials in English)

Organisation

Public course or company course at Zühlke or at the client's premises.

Description

In this two-day course, you will learn how the roles of Product Manager, Product Owner, Solution Manager, and Epic Owner drive the delivery of value in the SAFe enterprise. You'll get an overview of the Scaled Agile Framework® (SAFe®), the Lean-Agile mindset, and an understanding of how the Product Manager and Product Owner roles operate in the enterprise to drive the delivery of value. Finally, you will get an in-depth understanding of the specific activities, tools, and mechanics used to effectively deliver value to the enterprise.

Attending the class prepares you to take the exam and become a certified SAFe Product Manager/Product Owner (PMPO).

Goals

By the end of this course, you should be able to write Epics, Capabilities, Features, and User Stories within the context of SAFe, and have a solid foundation for managing backlogs and programs in a Lean-Agile enterprise.

Participants

The following individuals will benefit from this course: Product Managers, Product Line Managers, Product Owners, Business Owners, Business Analysts, Solution Managers, Portfolio Managers, Program Managers, PMO personnel, Process Leads, Enterprise, Solution, and System Architects.
