As Vice Provost (Strategic Research Partnerships), Dr Cheong develops multi-disciplinary, strategic research partnerships with government and industry, to advance the international standing of SMU's research.

Prior to SMU, as DS(Technology/MOH), he fought COVID-19, and developed the research and innovation ecosystem and data, IT and cybersecurity architectures to achieve population health, precision health and preventive health.

As DCEO(NRF), he implemented the S\$19B RIE2020 plan and developed the S\$25B RIE2025 plan. In MOE, he led educational policy, research, and international benchmarking. In MTI, he oversaw EDB and Economic Strategies Committee (chaired by President Tharman). In MOF, he shaped Singapore's long-term fiscal sustainability.

Dr Cheong Wei Yang

Vice Provost, Singapore Management University & Senior Advisor, Ministry of Health (Singapore)

Opening Keynote

 22 November 2023 | 6:15PM - 7:00PM

Dr Cheong Wei Yang

Vice-Provost, Singapore Management University
& Senior Advisor to Ministry of Health

Dr Eric Wong

Group Chief Data and Strategy Officer
National Health Group (NHG)

Kenneth Tan

SVP & President, Asia Pacific & Japan,
Varian

Prof Ser Wee

CEO
Space (MedTech) Pte Ltd

In today's rapidly evolving healthcare landscape, it's evident that collaborative healthcare ecosystems are the driving force behind innovation. The recent launch of the Healthcare Industry Transformation Map 2025 highlights the importance of strengthening partnerships across agencies, public healthcare and academic institutions to co-develop and scale innovative healthcare solutions.

This panel discussion brings together esteemed experts and thought leaders from the government, public health, medtech and pharma to share their invaluable experiences, lessons learnt and the vision for harnessing innovation to shape the future of health and patient care. Join us for insights that will drive the evolution of healthcare in the years to come.

Panel Session #2: Building Bridges: Traditional & Disruptor Ecosystem Collaboration

 22 November 2023 | 7:45PM - 8:30PM

Dr Chern Chet Yong

Asia Ecosystem
22Health Ventures

Lee Jia Ming

Head of Healthcare, NPO, Social, Start-ups
Amazon Web Services (AWS)

Dr Ng Yi Zhen

Senior Manager
National Health Innovation Centre (NHIC)

Tiffany R. Soetikno

Founder/Advisor
GUE Ecosystem

The healthcare industry is undergoing a significant transformation with the entry of innovative healthtech and medtech disruptors. As we continue to witness this dynamic transformation, a fundamental question emerges: Can traditional health ecosystems seamlessly coexist alongside disruptor ecosystems?

In this panel discussion, join experts and thought leaders as we explore this evolving landscape and gain a deeper understanding of the strategies, opportunities and challenges that emerge as these two forces unite to shape the future of health.

Panel Session #3: Gerontechnology & Active Ageing: When Innovation & Digital Divide Co-Exist

 22 November 2023 | 8:30PM - 9:15PM

A/P Carol Ma

Associate Professor & Head of Gerontology Programme
Singapore University of Social Sciences (SUSS)

Chan Su Yee

CEO
NTUC Health & NTUC First Campus

Adrian Tan

Co-Founder
SG Assist Pte Ltd

Charlene Ong

Senior Scientist, Singapore Imaging Biomarkers
MSD International GmbH

In a world increasingly defined by technology, the dialogue around active ageing takes on a new significance. As we embrace digitalisation on our journey towards a Smart Nation, there is a genuine worry that seniors may find themselves unable to navigate a world where technology is increasingly prominent, giving rise to a digital divide.

As such, this panel discussion focuses on this intricate landscape as we explore how geriatric technology – or gerontechnology - is reshaping the ageing experience as we continue to bridge the digital divide to enable our seniors to age gracefully and lead active and fulfilling lives.
